

In-Home Wound Care Services

NURSE PRACTITIONERS PROVIDING HANDS-ON WOUND CARE

RestorixHealth's in-home wound care services achieves better patient compliance, resulting in members being *healed* and *discharged* from care faster.

related therapy, including:

- + Pressure ulcers
- + Diabetic ulcers
- Non-healing surgical wounds
- Venous stasis ulcers
- Arterial ulcers
- Negative pressure wound therapy (wound vac)

By offering in-home wound care as part of your member care strategy, payers can expect to reduce healthcare expenses with direct and indirect savings.

- Delivering comprehensive wound care in a lower-cost environment
- Reducing wound-related admissions to hospital, skilled and long-term acute care facilities
- 5 Eliminating the overlap of multiple specialists treating patient for same wound

- Reducing wound-related patient visits to emergency departments and urgent care facilities
- 4 Reducing patient transportation costs
 - Establishing care delivery programs with national scalability

If you have a patient who can benefit from comprehensive wound care, call, fax or email a referral today.
